

THE GLOBESCAN SURVEY OF SUSTAINABILITY EXPERTS

Tap into the opinions and predictions of sustainable development and corporate responsibility experts around the world. Since 1994, the GlobeScan Survey of Sustainability Experts has tracked the views of influential thought leaders, exploring the social, ethical, environmental, and economic aspects of sustainable development and CSR.

- **Gain essential scanning intelligence** by monitoring the views and predictions of influential experts around the world.
- **Monitor and anticipate major changes** in public policy and business climate.
- **Supplement your public opinion research** with a powerful and unique source of market intelligence.
- **Develop a corporate radar** predictive of emerging changes in your operating environment.
- **Customize the research** by adding your proprietary questions to our study.

REGIONS*

* In addition to these three key regions, findings are also drawn from Africa, the Middle East, Eastern Europe, and South America.

THE GLOBESCAN SURVEY OF SUSTAINABILITY EXPERTS

The Survey of Sustainability Experts is conducted each January and September among GlobeScan's panel of 3,000 experts around the world. Approximately 300 of these experts respond to each survey. Interpretive reports are available in April and December.

EXPERT PANEL

- GlobeScan has enlisted an international panel of top sustainable development experts from North America, Europe, the Asia/Pacific region, South America and the Middle East.
- Respondents are drawn from five sectors:
 - Corporate
 - Government (including multilateral institutions)
 - NGOs
 - Institutional (e.g. academics)
 - Service (e.g. consultants)

COST

The annual fee for the Survey of Sustainability Experts is US\$8,000. Subscription includes:

- Electronic copy of each Highlights report
- Two hard copies and one electronic copy of each final report
- Intranet license for internal distribution

Additional omnibus question rate: US\$2,000 per closed-ended question.
